

Corps of Engineers' Coastal Engineering  
**Certificate Program**

## **Application Form**

**Instructions:** please fill out this application with your information. Please try to be brief, but you can add additional pages as needed. Thank you for considering CECEP!

**Name and Date of Application:**

**District or Lab:**

**Phone & e-mail:**

**Educational experience:** (College or university, degree, and date awarded)

**Job Experience:** (start and finish year, branch and area of work, brief description of technical aspects)

**Proposed courses:** (University, Course No., Course Name, Semester)

**Proposed District project to be used for CECEP and Technical Focus Area; include a brief description and justification:** (e.g., Treacherous Harbor, OH; wave propagation into harbor and harbor resonance; District is interested in rehabilitation and/or new design of Treacherous Harbor to minimize wave oscillations in harbor. Study would evaluate structural alternatives with numerical model to improve navigability and decrease oscillations.)

**Proposed CHL Mentor (if known):**

**Additional Information:**
